The Diversity Strategic Plan Implementation Task Force will engage members across our campus community in the shared goal of creating a culture of inclusive learning. Representatives from the campus centers identified as the Diversity Advisory Council will work with each of the specialized task forces that are aligned with the goals of the Diversity Strategic Plan. Individuals from all areas of campus will be asked to join the work of the task forces. In reality, we are all members of the implementation task force and together we will attend to the unique characteristics of our community that need to be addressed to achieve this goal.
