A SUGGESTED four-year program:

Early contact with the Chair of the Health Professions Advising Committee or the program coordinator is recommended in the first year. The Dental School Admission Requirements book must be checked during the sophomore year for specific school requirements.

UPS requires a total of 32 units to graduate.

(1) If Biology major, take Biol 111/112 first year. If other major, recommend Biol 212 instead of 112.
(2) Some schools (including UW) require biochemistry and microbiology. Students planning to apply to OHSU will need to complete two semesters of anatomy and physiology and biochemistry, including labs.
(3) Additional English writing courses recommended. Some schools require English literature, others English composition.
(4) Of the three units of upper division coursework required outside the first major, the Connections course will count for one unless it is used to meet a major requirement.

* Phys 111/112 I is preferable, but 121/122 is acceptable.
** Recommended. Required at some schools.
