Internship/Research (see note 3 below)

☐ **Foreign Language Requirement** (circle one)

1) Two semesters at 101/102 level or one semester at 200 level or above

2) Proficiency exam at 3rd year high school level or 1st year college level

3) AP foreign language score of 4 or 5, or IB higher level foreign language score of 5, 6 or 7

**Recommended:**

- Psychology 101

☐ **Upper Division Level Requirement**

Three units of coursework at the upper division level outside the first major

**KEY**

WR = Writing & Rhetoric
SI = Scholarly & Creative Inquiry
FN = Fine Arts Approaches
HM = Humanistic Approaches
MA = Mathematical Approaches
NS = Natural Scientific Approaches
SL = Social Scientific Approaches
CN = Connections
FL = Foreign Language

**NOTES:**

1) Prerequisites for NRSC 201 are Biology 111 OR Biology 101 with permission of instructor OR permission of instructor.

2) Three units of NRSC Emphasis electives are required: Bio 212; ExSc 221, ExSc 222; Bio 361 or Chem 461; Bio 404; Bio 434; Bio 472; CSci 431; Phil 228; Psyc 251 or Psyc 310; Psyc 341; Psyc 360; Psyc 361; Psyc 370 (Cognitive & Aging); STS 318; and STS 350. At least two electives must be from outside the student's major. Electives taken to fulfill the NRSC Emphasis requirements may also count toward the university upper division course requirement.

3) Students pursuing the NRSC Emphasis are required to participate in an undergraduate internship or research program, and must submit the required proposal after consulting with a NRSC advisor. Students may earn credit toward university or major requirements.

4) In addition to Psyc 101, graduate programs in neuroscience often require one year of biology; two years of chemistry, including organic; one year of math, including calculus; and one year of physics. Students are strongly encouraged to consult with their neuroscience advisors to evaluate if these courses are appropriate for their career interests.

**THIS FORM IS NOT AN OFFICIAL GRADUATION ANALYSIS.**
