**NOTES:**

(1) All major courses must be taken for a grade. Psychology majors must satisfy university core requirements other than First Year Seminars outside of the Psychology Department. First-year (WR/SI) seminars cannot be used to fulfill major requirements.

(2) BIOL 111 or 101 should be taken in the first or second year.

* BIOL 111 is strongly recommended for students with an interest in biological psychology or neuroscience.

**Psychology majors may not use PSYC 225 to fulfill the Social Scientific Approaches core requirement.

# Students with a strong psychology background may petition the department to take an elective instead of PSYC 101.

## PSYC 101 is prerequisite to PSYC 201. PSYC 201 with C- or better or instructor permission is prerequisite to PSYC 301.

### All laboratory courses have PSYC 201 as a prerequisite. PSYC 312 also requires PSYC 301 or instructor permission. PSYC 311 students participate in laboratories involving live animals.

#### Two must be taken from the Foundations category at any level, which include PSYC courses numbered between 220-239 and 320-339. Two must be taken at the 300 or 400 level. Note: PSYC 370 may only be counted once toward the major.

Internship and independent study courses may count as upper-division electives.
