PENINSULA COLLEGE

UNIVERSITY OF PUGET SOUND TRANSFER AGREEMENT

This guide is a reference to assist students at Peninsula College in their preparation for transfer to the University of Puget Sound. It contains general transfer credit information and lists Peninsula College courses that are transferable as University Core requirements, 100-200 level major requirements, or electives.

Community college courses that are similar to Puget Sound courses numbered at the 100 or 200 level are generally transferable. However, as transfer evaluations are done on a course-by-course basis in the context of each student’s academic program, it is possible for an evaluation to include courses not listed in this guide as well as to exclude courses that are listed. Therefore, students are encouraged to seek the advice of the Puget Sound Office of Admission to complete an interview or examination before being placed into a program of study. Based on a student’s placement, transfer credit may be adjusted and a student required to complete appropriate courses in residence. Again, students are encouraged to contact the Office of Admission for assistance in planning their transfer to Puget Sound.

NOTE: These listings only apply to regular course offerings completed by regular college students. Courses offered in other formats, such as programmed learning, challenge examination, distance-learning, online, telecourses, or extension programs may not be transferable. Additionally, college credit earned by a student prior to high school graduation is subject to special evaluation criteria and reviewed for transfer credit on a case-by-case basis using both the high school and college transcripts. Students should contact the Admission Evaluators in the Office of the Registrar for specific information.

Because curriculum revisions may occur during the year, all announcements are subject to change without notice. Additionally, this agreement is not to be regarded as having created any binding contract between the University and any student or community college.

In the next year, the University will implement a new Core curriculum. Freshmen who enter the University in Fall 2003 will be subject to the new requirements, as will sophomore transfer students who enter in Fall 2004 and junior transfer students who enter in Fall 2005. The new Core includes 8 requirements, instead of 12, along with a language requirement. Sophomore transfer students may complete 4 Core and the language requirement with transfer credit while junior transfer students may complete 5 Core courses and the language requirement with transfer credit.

All transfer credit used in a major or minor program is subject to individual departmental review and approval. Academic departments may require a transfer student to complete an interview or examination before being placed into a program of study. Based on a student’s placement, transfer credit may be adjusted and a student required to complete appropriate courses in residence. Again, students are encouraged to contact the Office of Admission for assistance in planning their transfer to Puget Sound.
