Faculty Senate charges to the
Library, Media, and Information Services (LMIS) Committee

Academic Year 2015-16

**Charge #1** (Approved at the 09/28/15 senate meeting)
Work with Institutional Research (IR) and Technology Services (TS) to develop policies concerning the appropriate use of institutional data on campus.

*Rationale:* LMIS asked to be issued this charge in its year-end report.

**Charge #2** (Approved at the 09/28/15 senate meeting)
Develop a preservation strategy for digital archives of faculty research.

*Rationale:* LMIS addressed this issue only briefly concerning “university documents” generally. The committee had focused on mainly on a separate charge regarding the “ways in which our research collections and space might evolve to meet student and faculty needs” (see year-end report). Focusing on faculty research exclusively might prove more feasible, and a preservation strategy in this area might provide a template for the archiving of other documentation.

**Charge #3** (Approved at the 09/28/15 senate meeting)
Continue to support initiatives to raise awareness and use of the Archives and Special Collections.

*Rationale:* LMIS did not discuss this charge in 2014-2015.

**Charge #4** (Approved at the 09/28/15 senate meeting)
Discuss ways in which LMIS can support collaborative activities on campus such as NW5C digital humanities projects.

*Rationale:* LMIS did not discuss this charge in 2014-2015.
