Neurologic Physical Therapy

Practice Theory and Practical Skills

Offered by: Jennifer Hastings PT PhD NCS

Learn to increase patient success and enjoyment of your job - skills to improve patient outcomes while preserving yourself

This course offers a framework and skill set that are applicable across populations with ongoing disability of a neurologic origin. The two additional lab offerings are limited to those who have completed the lecture and participated in the first lab session. Registration will be limited to 36 persons for the lecture and a maximum of 14 for each lab session.
