Faculty Senate charges to the Student Life Committee
Academic year 2015-2016

**Charge #1** (Approved at the 09/28/15 senate meeting)
Continue to review and revise as the Committee wishes its procedures, particularly as they pertain to the liaison and board staffing responsibilities of Committee members. Monitor the effect of these revisions, particularly with regard to issues of workload and work distribution. Assess future staffing and support needs.

*Rationale:* The SLC has done much productive work in rethinking and revising its internal operating procedures. The Senate recognizes the Committee’s authority to make such changes and encourages it to continue with this process and to monitor the effectiveness of any changes.

**Charge #2** (Approved at the 09/28/15 senate meeting)
Examine the advisability of Student Life Committee members serving in additional co-curricular service assignments (such as advisor to KUPS, the Union Board, etc.).

*Rationale:* The model developed by the SLC might be extended to provide additional faculty support of student organizations. The Senate urges the Committee to consider the advisability of such an extension.

**Charge #3** (Approved at the 10/12/15 senate meeting)
Work with PSC, BHERT, and the CoD to identify conflicts, if there are any, between the Faculty Code and the Response Protocol to Incidents of Bias or Hate.

*Rationale:* Discussion arose last year concerning possible conflicts between academic freedom as defined in various university documents and the rights of members of the university community.
