**TAKE A LOGGER TO WORK 2018**

**6 CRITERIA TO KEEP IN MIND WHEN RECOMMENDING HOSTS**

1. **INDUSTRY**
   - We aim to connect students with hosts in a variety of roles and fields.

2. **LOCATION**
   - Targeted host cities include:
     - Seattle
     - Tacoma/Olympia
     - Portland
     - Bay Area
     - Los Angeles
     - Denver
     - Washington D.C.*
   - *New location for 2018!

3. **'03–'16 GRADS**
   - Students tell us that hosts who are 2-15 years out from graduation are more accessible and less intimidating. Often, hosts in this range are typically in roles that seem attainable to students.

4. **ENGAGEMENT**
   - Hosting is best positioned as an enhanced engagement opportunity. We found that alumni and parents who are currently engaged with the university tend to be more responsive and invested in the opportunity to host and mentor students.

5. **STUDENT-DRIVEN**
   - Students benefit most from hosts that make an effort to create a setting that welcomes exploration which then provides a safe space for learning. Students respond best to hosts who are warm, friendly, and take the initiative to guide students in their career exploration.

6. **BIG PICTURE**
   - Take a Logger to Work (TLW) is designed to expose students to many career paths. We need hosts who understand the value of TLW as an experiential learning opportunity, and make an effort to provide a meaningful experience.

7. **HELP FILL THE GAP**
   - We often need hosts in the fields below:
     - Arts/Humanities
     - Conservation
     - Non-Profit
     - Sciences

---

**TIMING IS EVERYTHING**

Securing hosts often takes many months. To give our team a head start, we request that recommendations are received by: **JUNE 30, 2017**
