WINTER BREAK PARKING

During Winter Break the Wheelock Lot (Lot 1) is fenced off to provide secured parking for resident students while they are away for the break.

The fence will go up Wednesday, Dec. 18th and be taken down Friday, Jan. 17th

- Winter break parking is for Resident Students only.
- Students must have a current parking decal and in addition, they must register for winter break parking.
- Students should not register until they have parked their cars in the lot and are ready to leave for the break.
- If you have questions contact Kris or Danette during the daytime hours, Mon-Fri, 8am-4pm 253.879.3311.

We do not take reservations. Parking in the lot is first come, first served.
We do not take down student/vehicle information until the student has parked the vehicle in the lot and is leaving campus for the break.

a. If the lot is full, students will be asked to park as close to the lot as possible on North Lawrence Street. We do not log these vehicles.

b. If a student wants to retrieve their vehicle from the lot and it is locked, they can contact Security.

1. We strongly recommend that all resident students park in Lot 1, or as close as possible to that lot (Commuter Students). This makes it easier for Security to watch these vehicles. Vehicles parked sporadically around campus are more likely to be broken into.

2. We strongly recommend students do not leave anything of value inside their vehicles over winter break.

3. Security and the University make no guarantees for the security of a vehicle parked on campus over the break and will not be responsible for damage or theft.

4. The ZipCars will not be enclosed in the fenced in area.
