

Name:

→ Audrey Davis

Major/Minor:

→ Economics/Bioethics

Expected Graduation:

→ Spring 2024

Why did you choose Puget Sound?

→ I loved the small campus feel when touring and wanted to be more than just a number that I could have been at other larger schools I considered

Tell us about your favorite class at Puget Sound so far.

→ Frontiers of Indigenous America covered a commonly distorted history through a re-centered focus with materials I probably would have never read otherwise.

What do you feel has been your greatest success while at Puget Sound?

→ Working to bring the University newspaper back to print following virtual learning during covid and basically building a team and product from scratch

Something I love about Puget Sound is...

→ Attending such a small school definitely has its pros and cons, but one pro is the opportunity to get involved- there are so many different ways to explore your passions.

In my spare time I like to...

→ bake, take long walks, and read

What is the most important thing you have learned from your time as a student staff member in the Office of Academic Advising?

→ I've witnessed what a professional yet understanding workplace environment can look like. I've worked a lot of jobs where my employers cared more about having a body on the floor than they did about their workers' health and wellbeing. Working in a space where staff are encouraged to take care of themselves provided me with an important insight into holistic management.
