

Study Abroad Course Equivalency Report

Use this form for courses that require specific course equivalencies from study abroad to be used for major/minor or core curriculum requirements, as soon as your study abroad courses are finalized. Study abroad courses do not automatically count for major/minor/core requirements unless otherwise approved below.

Credits earned on a Puget Sound approved study abroad program are automatically listed as general elective credit on your Puget Sound transcript after completion of the program and upon receipt of your program transcript.

Courses appear on the student's Puget Sound transcript with the program course title, number of units, and the general elective prefix and course number for lower- and upper-division (TRNF XXX and 3XX, respectively).

STEP 1: Complete student information
