

Economics Department Course Assistant

Experience: Create an end-of-course competition for all Introductory Economics students

Reflection Assignment: Evaluations of goals, process, and results with a “Before – During – After” discussion.

1. How can Intro students benefit from a common End of Course experience?
 - a. Would your experience as an economics major be different if you had this experience?
 - b. Use your discussion to create Learning Objectives for our project.

2. What prepared you for the creation of the EoC competition?
What additional experiences would have been useful to you in this project?

3. What worked? What didn't? How would you change the experience? How well were your learning objectives met?
