

ENVR 357: Environmental Challenge – a Student led team

Experience: Environmental Challenge Competition

Reflection Questions:

- After the competition, students gathered and discussed the following questions.
- What was the most fun aspect of the EC competition?
- How was your experience competing in the EC program different from your expectation?
- What preparation did you find to be the most advantageous?
 - In hindsight, would you change your preparation? If so, how?
- What did you learn from the evaluation of your team's proposal by the environmental professionals?
 - What was surprising and/or useful in their evaluation?
- What recommendations would you make to next year's participants regarding their preparation, their proposals, and their participation at the conference?
